

Newton Avenue Concept Development Study

Public Information Center

WE NEED YOUR INPUT!

Thursday, October 24, 2019, 6 P.M.
Cooper Medical School of Rowan University
401 Broadway, Camden NJ 08103

Camden County, in collaboration with Cooper's Ferry Partnership, is conducting a Concept Development study for safety, operational, and network connectivity improvements to Newton Avenue (CR 604) between Kaighn Avenue/4th Street and Pine Street/7th Street for all roadway users. The purpose of this meeting is to review alternatives developed for improvements to Newton Avenue with the public. The goal of the project is to identify a preferred alternative that best addresses the existing roadway safety and operational deficiencies, provides better network connectivity and traffic flow, and supports the revitalization of the neighborhood. A Preferred Alternative will be selected from this community-driven and stakeholder supported process.

WE NEED YOUR PARTICIPATION!

Camden County would like your opinion. Your attendance at this meeting and participation in this project will help determine a preferred alternative that addresses the community's needs and concerns. Surveys will be available at the meeting. In addition, an online survey link will be accessible from October 24 through November 8. Please return/submit your completed survey by November 8, 2019 in the following ways:

- Online at <https://www.surveymonkey.com/r/LS6SH2F>
- Via email to: jkang@sjheng.com
- Via postal mail to: SJH Engineering PC c/o Jing Kang, PE
3700 Route 27, Suite 201
Princeton, NJ 08540

For additional questions or comments on the project, you may submit them via email to jkang@sjheng.com, or by writing to the address above.
