Grana, Generosa	3/21/2017	I'm new to Cooper. I have been seen in the ER a few times and my primary care physician & gynecologist are at 3 Cooper plaza. The gynecologist in the ER picked up on a growth on one of my ovaries. She found it serious enough to refer me to my gynecologist for further tests. My first appointment with Dr. Grana was a little nerve wracking but between her and the nurses treating me like family I was ok. The person who works in scheduling, Vicky, is an absolute angel. She went above and beyond to accommodate me.	513
Grana, Generosa	3/26/2017	For the question regarding contact following a test or x-ray etc. I answered that I was not called with results. MD Anderson and the Janet Knowles Breast Cancer Department is an excellent facility and the Doctors and Nurses are top notch. I have always been treated with respect and kindness and that includes the receptionist at the front desk. The access to staff through phone calls is difficult and follow through with phone calls from office staff could be much better. At one point, months ago, I actually had to drive over to the office to see that a request was completed correctly. The person who helped me apologized and completed my request correctly, but she was not the one who did not follow through. This should have been completed by phone if the person had truly listened to what I was requesting and took a few extra minutes to do the job correctly. Having worked for a large practice myself, we always put ourselves in the patients shoes and put their needs first.	735
