

Hospital Medicine APP Fellowship

Program Overview

Join us for a transformative 12-month fellowship journey designed for Acute Care Nurse Practitioners or Physician Assistants who are new to practice or have less than one year of experience, eager to enhance their clinical and professional skills within a nurturing and collaborative setting. This fellowship offers a comprehensive curriculum designed to deepen expertise and instill confidence in hospital medicine.

APP Practice at Cooper

Over 500 APPs are currently in practice throughout 75 specialties within Cooper University Health Care. Cooper established a Center of Advanced Practice in 2023 to promote and support the role of advanced practice providers in the health care continuum.
