

Let's Talk:

Cancer Care in the Sickle Cell Patient

Tuesday, Sept. 24, 2024

6 p.m. – 8 p.m.

FREE

Patients with sickle cell disease face unique challenges when diagnosed with cancer.

Join us to explore these challenges, including managing crises during treatment, and learn about the importance of cancer screening and health modifications for sickle cell patients.

This webinar is open to healthcare providers, patients, families, and the community.

Obtain 2.0 Nursing contact hours for completing this webinar.

To register and receive Zoom link, please email **Lee-Frances@cooperhealth.edu** or call **856.735.6240**

Presented By

Christina Clay, MD
