

ARTIFICIAL INTELLIGENCE:

What Is It and How Pervasive Is It in Health Care and in Your Nursing Practice?

Cooper invites you to join **Gloria Donnelly, PhD, RN, FAAN, FCPP**, as she shares her talk on the *Seven Deadly Sins of AI in Healthcare*. Keenly aware of the impact of AI in both health care and nursing education, Dr. Donnelly's objective is to

heighten nurses' awareness to both the benefits and pitfalls of AI, specifically:

- The reliability/accuracy of the information in AI databases.
- Ownership and security of AI data.
- Inherent errors and biases.
- Accountability for practice result based on AI.
- Current state of AI regulation.

ABOUT THE SPEAKER: To learn more about Gloria Donnelly, PhD, RN, FAAN, FCPP, please scan the QR code.

Join us, either in person or virtually, to learn more about strategies to protect patients, your practice, and your license.

Friday, May 9, 2025, at 10 a.m.

Cooper Conference Center CC105
